

Experiements\Ex-9\Super_method.java

```
1  class Person {
2      void message()
3      {
4          System.out.println("This is person class\n");
5      }
6  }
7  class Student extends Person {
8      void message()
9      {
10         System.out.println("This is student class");
11     }
12     void display()
13     {
14         message();
15         super.message();
16     }
17 }
18 class Super_method {
19     public static void main(String args[])
20     {
21         Student s = new Student();
22         s.display();
23     }
24 }
25
26 /*
27  * Output:-
28  This is student class
29  This is person class
30  */
```
